

## **Workshop on Labor market over the life-cycle (Paris, September 5th 2011)**

The workshop on labor market dynamics over the life-cycle will be hosted by Cepremap (48, Boulevard Jourdan). It aims at presenting recent papers on labor market dynamics in a life-cycle framework. These papers share the objective of accounting for the heterogeneity of hiring and firing flows in terms of age. This issue has received recent attention from academics, both on the empirical and theoretical sides. It leads to a better understanding of existing labor markets worldwide and to a reexamination of age-dependent policies.

### Programm

- 8.45 am: Opening address by Daniel Cohen, Cepremap Chairman
- 9.00 am: G. Menzio (University of Pennsylvania): Directed Search over the Life Cycle; Discussant : P. Cahuc (Ecole Polytechnique, Crest)
